Muylle Facon was founded in 1906 as a manufacturer of high-quality putty and is now an important producer of waterproof products, coatings and sealers, impermeable and impervious to water, and other specialties for buildings.

Its first range of wood treatment products was launched in 1962:

- **Teintécire**: Waterbased colorstain with warm colors, which provides a nice gloss and antique look.
- **Ciraneuf**: Liquid or solid beeswax, turpentine based.
- **Boizaneuf**: Paint remover.

The close collaboration between the laboratory, the sales-team and the applicators has resulted in the development of the unique Rubio® Monocoat range.

Rubio is a Registered Trademark of Muylle-Facon.

Based on test method CMA/3/E*

**EXTERIOR WOOD CLEANER**
Rubio® Monocoat Exterior Wood Cleaner is a preparatory product used to clean wooden patios, fences, exterior doors, carports, etc. prior to being finished with a Rubio® Monocoat exterior finish product. Please reference the TDS before using.

**COLOR EFFECTS AND MAINTENANCE SOLUTIONS**

**WOODCREAM SOFTENER**
Rubio® WoodCream Softener is a product that allows you to decrease the color intensity of the Rubio® WoodCream colors and create a more transparent or aged effect. Rubio® WoodCream Softener is also used as a mix-in when performing a maintenance application of the Rubio® WoodCream.

**EXTERIOR SOAP**
Rubio® Monocoat Exterior Soap is a soap with a cleaning and nourishing action. This product is suitable for all external wooden surfaces when finishing with Rubio® Monocoat exterior oil. Please reference the TDS before using.

- More transparent effect
- More natural effect

- More transparent or aged effect
- More natural or aged effect

Rubio® WoodCream Softener is used to decrease the color intensity of the Rubio® WoodCream colors and create a more transparent or aged effect. Rubio® WoodCream Softener is also used as a mix-in when performing a maintenance application of the Rubio® WoodCream.

**UNIQUE CHARACTERISTICS**

- 0% VOC
- Reduces the solid content without changing the viscosity
- Extends the drying time
- Easier to work with in hot conditions
- Reduced risk of overlaps
- Easier spreadability on rough and porous species
- Reduced layer build-up during maintenance or when 2 layers are applied.
- Create an instant aged look by diluting a color from the Grey Collection

**DURABLE AND DECORATIVE OIL FOR EXTERIOR WOOD**

**RUBIO® MONOCOAT HYBRID WOOD PROTECTOR**

Rubio® Monocoat Hybrid Wood Protector is a genuine ‘monocoat’, suitable for coloring and protecting almost all exterior wood in a single layer. The exterior oil protects wooden decks, patios, facades, doors, shutters, carports, garden furniture, gazebos, pergolas, etc., from dissolution and weathering. The easy application and maintenance make this oil an exceptionally user-friendly product.

**MOLECULAR BONDING**

Rubio-Monocoat oil adheres, without a single gap, to the topmost fibers of the wood through a revolutionary molecular bonding technology. This provides a durable finish that keeps the wood’s natural look and feel. As there are no layers built up, the finish does not peel off in Rubio®.

**GREEN**

Rubio-Monocoat Hybrid Wood Protector is plant based as it does not contain water, formaldehyde, or Volatile Organic Compounds (VOCs). This ensures a product safe for the person applying it and safe for the environment!

**EFFICIENT**

With one layer of Rubio Monocoat Hybrid Wood Protector, you can treat up to 300 sq. ft of decking wood. Due to molecular bonding with the topmost fibers of the wood, there is no need for a second coat. Cuts drying time and sanding between coats are the vast of the paint.

**EASY**

Have you ever imagined a single layer? Thanks to the revolutionary molecular bonding technology, Rubio® Monocoat Hybrid Wood Protector will not overlap or show starting marks. Additionally, future maintenance including refreshing of color and protection is done using the same product, with no need for sanding!

**UV STABILIZERS**

Protect the beautiful UV rays put off by the sun with UV stabilizers. UV rays are often in the forms of colored pigments, which help to stabilize the surface of the wood. However, these natural color pigments may slowly fade the color of the wood. To slow this process, and to protect the color of the wood, an additive known as a UV stabilizer is used.

**WAX-BASED CREAM**

Rubio® WoodCream not only colors and protects the wood, but also nourishes it. The cream penetrates deeply into the wood and ensures that the surface remains vapor permeable. The cream doesn’t contain fillers and doesn’t form a sealing layer on the wood as other paint products and lacquers do. Rubio® WoodCream will not flake off and therefore guarantees a much longer lifespan of the wood.

**WATER-REPELLENT**

Rubio® WoodCream not only acts as a sealing layer on the wood, but also forms a sealing layer on the wood as other paint products and lacquers do. Rubio® WoodCream will not flake off and therefore guarantees a much longer lifespan of the wood.

**BEAUTIFUL BEAUTY OF WOOD**

Rubio® WoodCream, Bold Black and Creamy White.

**HYDROPHOBIC TECHNOLOGY**

The capillary force of the wood fibers, the force that attracts water, is converted into a water-repellent force because of the hydrophobic character of the wood. Rubio® WoodCream. This results in a long-lasting water-repellent effect on the wood, which gives the wood a very durable protection against extreme weather conditions.

**SUSTAINABLE SELF-CLEANING**

The water-based effect provides protection against water, and at the same time creates a self-cleaning effect. The water-based effect reduces the risk of micro-organism growth (algae, molds, fungi) and prevents frost damage.

**RUBIO® WOODCREAM**

Our Rubio® Woodcream is based on hydrophobic technology especially developed for maximum wood protection. Its unique self-cleaning formula intensely nourishes the wood, preserves the breathable structure, and makes it water-repellent. The beauty of it all: the wood comes in a wide range of colors and brushes smoothly. A joy to work with and a feast for the eyes!
