**Molecular Bonding Technology**

Rubio Monocoat sets the standard when it comes to high quality and environmentally friendly wood protection.

Due to its advanced molecular bonding technology, Rubio Monocoat Oil has the following qualities:

- **Durable protection of the wood in one single layer.**
- **Economical!**
- **0% VOC & 0% Water.**
- **Very easy to apply and maintain.**
- **Can be applied to all types of wood.**
- **A great selection of over 50 standard colours to choose from.**

**One single layer**

Traditional systems require at least 3 layers to provide the appearance of a traditional finish. Rubio Monocoat Oil is a single layer system, offering a durable and lasting result.

**Unique colours**

Rubio Monocoat Oil uses a pigment technology allowing for in-situ and deep coloring in one single layer, without compromising the natural look and feel of the wood.

**Easy to maintain and repair**

Surfaces treated with Rubio Monocoat Oil need no maintenance, while isolated scratches or damage can easily be repaired.

**Durable protection**

Thanks to the molecular bonding technology, Rubio Monocoat Oil creates a durable and lasting finish. The wood retains its natural look and feel while offering remarkable long-lasting protection.

**No overlaps**

 Rubio Monocoat Oil families are molecularly bound, enabling the creation of a single layer finish without the need for overlaps. This ensures a professional finish, without laps or lap lines.

**Available in 50+ attractive standard colours!**

Create your own custom colours by mixing any combination of standard colors.

**RUBIO® MONOCOAT OIL: Wood Protection Based On Molecular Bonding Technology**

---

**RUBIO® MONOCOAT OIL PLUS 2C**

**New generation: with drying accelerator**

Exceptional projects deserve a durable finish where the decorative aspect should not be overlooked. An easy application method and quick walkability are also important, especially with projects where the execution has to be done under tight constraints. Rubio Monocoat Oil Plus 2C has all the assets.

**QUICK AND DURABLE STRENGTH BUILD UP:**

RMC Oil Plus 2C is a 2-component system, consisting of RMC Oil Plus (A) and RMC Accelerator (B).

All the characteristics of the RMC Oil Plus also apply to the 2 component version. The wood is coloured via molecular bonding and protected in one single layer, while the wood keeps its natural look and feel, plus:

- Aulsion strength build up
- Water and tear resistance
- Aulsion hardening - 90% cured after 2 days
- Aouston dry maintenance period: after 5 days you can clean with soap and water

**Available in 50+ attractive standard colours!**

**RMC OIL PLUS 2C: APPLICATION**

Apply - Allow To React - Remove All Excess Oil

1. **APPLY**

After vacuuming, treat the surface with RMC Cleaners to thoroughly remove any dust, then leave it dry. Apply oil using an application pad and a fine linen cloth. Start at the edges and continue in the longest direction of the floor in approximately 50-100 sf sections. You can use a red or white pad to spread the oil.

2. **ALLOW TO SETTLE**

After the oil has been applied, remove excess oil using a new white pad. Thoroughly remove all excess oil by patting the wood down using the white applicator pad. This will remove excess oil only.

After application time and area, apply oil - rolling or wetting - remaining 10-15 minutes. This application time must not be exceeded.

3. **REMOVE EXCESS OIL**

After the previous step, remove excess oil using a new white pad.

4. **REPEAT STEPS 1 TO 3**

Continue in increments of 50-100 sf, repeat steps 1-3 until the floor is done. The surface is ready for gentle use after 24 hours and will be fully cured within 5 days.

Before use, please read the technical data sheet.

---

**RUBIO® MONOCOAT CREATIVE ZONE**

Expand your creativity.

RMC provides two creative pre-treatments: Precolor Easy and Tannin Reactives.

These optional pre-treatments are used to achieve complimentary or contrasting effects while still allowing RMC’s molecular bonding technology to occur. Pre-treatments are not recommended and should be finished as a RMC Oil or Paint.

**PRECOLOR EASY**

RMC Precolor Easy colours the wood while keeping a natural look. It is available in 14 colours, which can all be mixed to create endless colour possibilities.

**TANNIN REACTIVE STAIN**

RMC Tannin Reactive Stain mimics various species naturally. Based in Oak, Ash and similar other species, it can be used to quickly re-colour the fumed (aged grey) effect on wood without the harmful chemicals. The effect is entirely dependent on the tannin content of each individual piece of wood and is therefore highly variable.
**GENERAL CLEANING**

RMC Soap

RMC Soap is the concentrated version of RMC Surface Care Spray. For the routine cleaning of Rubio Monocoat and many other surfaces. To prepare RMC Surface Care Spray, mix 1 part RMC Soap to 10 parts water.

RMC Surface Care

RMC Surface Care is the handy, ready-to-use version of RMC Soap. Simply spray it on a microfiber mop or cloth to provide a clear view of your Rubio Monocoat surface. It is also used to treat mild local stains.

**RENEWING & RENOVATING**

RMC Renew

RMC Renew is ready to use product that refreshes, restores and protects surfaces treated with RMC Oil Plus 2C. RMC Renew should be used when the surface feels too dry or rough, or when the finish has worn down due to heavy use.

Renew and restore as follows:

1. CLEAN the surface with RMC Soap or RMC Surface Care.
2. APPLY RMC Renew on the surface area.
3. REMOVE ALL EXCESS OIL WITHIN 10-15 MINUTES.
4. WALKABLE AFTER 4-6 HOURS.

**OIL PLUS 2C RENOVATION**

When colour restoration is necessary, RMC Oil Plus 2C can be used to renovate a Rubio Monocoat finished surface:

1. ABRIDE the surface with a Maroon pad.
2. REMOVE all dust from the surface.
3. APPLY RMC Oil Plus 2C in the original colour (no thinning) on the surface.
4. REMOVE ALL EXCESS OIL WITHIN 10-15 MINUTES.

**SHEEN ENHANCEMENT**

RMC Universal Maintenance Oil

RMC Universal Maintenance Oil increases the shine of Rubio® Monocoat’s naturally matte finish, providing additional design opportunities. RMC Universal Maintenance Oil can also be used as a gentle and natural method to maintain all oiled wood floors, regardless of the original producer. This product can also be used on sanded surfaces that start to show minor cracks. Extremely suitable for floors that require extra protection such as; public areas, offices, restaurants, hotels, etc.

Available in 5 colours: Pure, White, Black, Brown, and Grey.

Note: For intense colour renewal, the best option is a renovation using RMC Oil Plus 2C in the original colour.
